PLEASE NOTE: Colours may vary up to 10% from printed proof.

Pole-Vault contains naphthalophos, a member of the organophosphorus family of chemicals. It is effective against organophosphate susceptible strains of mature and immature stages of Barber's Pole worm (*Haemonchus contortus*), Stomach Hair worm (*Trichostrongylus axei*), Black Scour worm (*Trichostrongylus* spp.), Small Brown Stomach worm (*Ostertagia* spp.), and mature stages of Thin Necked Intestinal worm (*Nematodirus* spp.) in sheep and lambs.

Pole-Vault will control strains resistant to other drench groups but resistance may develop to any drench product. Ask your local veterinary practitioner or animal health adviser for recommended parasite management practices for your area to reduce development of resistance. It is advisable that a resistance test be conducted before any parasite treatment is used. If drench failure is suspected, seek veterinary confirmation and notify the manufacturer.

DIRECTIONS FOR USE

Restrains: DO NOT USE in ewes which are producing or may in the future produce milk that may be used or processed for human consumption.

Contraindications: This product is contraindicated for use in severely debilitated, stressed or drought affected animals or those affected by lupinosis. This product should not be used on lambs less than 6kg.

Precautions: This product must not be used at the same time as any other drench without veterinary advice. Do not treat thirsty, exhausted sheep or those suffering from poor nutrition. Allow animals access to water after treatment. Use care when drenching. Do not misdirect dosage into the lungs. Check the accuracy of drench gun before starting to treat.

Dosage and Administration: Sheep should be weighed. Select the correct dose for each sheep. Do not underdose or overdose.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

Bodyweight kg	Dose Volume mL of prepared drench	Number of Sheep treated per pack
6 - 7.5	2	5000
7.6 - 9	2.5	4000
9.1-12	3	3333
12.1-16	4	2500
16.1 - 20	5	2000
20.1 - 28	6.5	1538
28.1 - 40	9	1111
40.1 - 52	13	769
52.1 - 68	17	588
68.1 - 90	22	454

WITHOLDING PERIODS:

MEAT: DO NOT USE less than 7 days before slaughter for human consumption.

MILK: DO NOT USE in ewes which are producing or may in the future produce milk that may be used or processed for human consumption.

TRADE ADVICE - EXPORT SLAUGHTER INTERVAL (ESI): DO NOT USE less than 7 days before slaughter for export. Before using this product, confirm the current ESI from Nutrien Ag Solutions Limited on 1300 255 347 or the APVMA website (www.apvma.gov.au/residues).

GENERAL DIRECTIONS

Mixing Instructions: Pole-Vault mixes readily with all types of water. Its high suspendibility ensures a consistent uniform suspension during drenching. If product is left standing, shake well before using. Remove large cap and half fill container slowly with water. Replace cap and shake well. Then remove cap and top up with water to the fill-line shown. Replace cap and shake well for 3 minutes. Pole-Vault may be mixed with benzimidazole and levamisole based drench product under veterinary advice.

SAFETY DIRECTIONS: Very Dangerous. Product and drench are poisonous if absorbed by skin contact, inhaled or swallowed. May irritate the eyes and skin. Repeated exposure may cause allergic disorders. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. Do not inhale dust. When opening the container and preparing drench, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), PVC or rubber apron, elbow length chemical resistant gloves and a disposable dust face mask covering mouth and nose. When using the prepared drench wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), PVC or rubber apron, and elbow-length chemical resistant gloves. If clothing becomes contaminated with product remove clothing immediately. If product or drench on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use wash gloves and contaminated clothing.

FIRST AID: If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed. Additional information is listed in the Safety Data Sheet (SDS).

DISPOSAL: Triple-rinse container into the medicated drench. Do not dispose of undiluted chemicals on-site. If the container has the drumMUSTER logo visible, and has been thoroughly cleaned and dried, and is free of any visible residues, it can be recycled at any drumMUSTER collection or similar container management program site. The cap should not be replaced, but may be recycled separately with the container. If an approved waste management facility is not available, bury the broken, crushed or punctured containers 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

STORAGE: Store below 30°C (Room Temperature) in original container, tightly closed, in a safe place.

NOTE: Purchaser assumes all risks of use and handling where product is not used in accordance with directions given.

ADDITIONAL USER SAFETY INFORMATION: Additional information is listed in the Safety Data Sheet.

CONDITIONS OF SALE: The use of this product is beyond the control of Nutrien Ag Solutions Limited. Any provisions or rights under the Australian Consumer Law which cannot be excluded by law are not intended to be excluded by these conditions of sale. Subject to the foregoing, all warranties, conditions, rights and remedies expressed or implied under common law, statute or otherwise, in relation to the sale, supply, storage, use or application of this product are excluded. Nutrien Ag Solutions Limited does not accept any liability (including consequential loss and/or negligence) for any loss or damage connected with the sale, supply, storage, use or application of this product except for liability which cannot be excluded by statute.
